

my favorite season

I have a season I like. It's summer. I have three things I want to talk to about summer. They are the fun, the temperature, and the flies. First, I want to talk to you about the fun. You can go water skiing, you can go swimming or get a tan. Next, I want to talk to you about the temperature. It can get very hot in the summer. It can get over a hundred degrees outside. I like to be able to put on short pants and a tee shirt. Finally, I want to talk to you about the flies. The flies like the warm weather. They get annoying so times but I don't care. Out of all the seasons I could pick I like this one the most.

I have a season I like and it's summer. I have three wonderful things about summer. I want to talk to you about them. They are the fun, the temperature, and the flies. These are the best things about summer.
