

What is your favorite season? My favorite season is spring. The three reasons are that baseball season starts, flowers start to bloom, and you start planting a garden.

The first reason is that baseball season starts. I like to play baseball. I play left or right field. I can hit the ball very hard! I love to play baseball.

The second reason is that flowers start to bloom. I pick them for my mother. I like the smell of them. They are very pretty. My favorite flower is the rose. I like roses because they smell good and look pretty.

My final reason is that you start planting a garden. In my garden I plant tomatoes, corn, potatoes, okra, string beans, watermelon, cantaloupe, cabbage heads, and strawberries. My dad helps me with the garden. It's very fun to plant the garden with my dad.

Those are the reasons spring is my favorite season. I like spring very, very much, how about you? I hope now that you have heard my reasons that you like spring better than you did before.
